

Anti-Neuroblastoma Antibody (Clone FMG25)

Alternative Names: NB-Ab

Catalogue Number: AX17-10014-100ug

Size: 100 µg

Background Information

Neuroblastoma is a disease of the sympathetic nervous system, in children under the age of 5. This tumour, derived from neuroblasts (undifferentiated embryonic nerve cells).

This antibody (Clone FMG25) can be used to differentiate between neuroblastoma and rhabdomyosarcoma. It does not bind to other small round-cell tumours of childhood. It cross reacts with normal brain and peripheral nerve.

Product Information

Antibody Type:	Monoclonal	Host:	Mouse
Isotype:	IgG1	Species Reactivity:	Human
Immunogen:	Human cutaneous T cell lymphoma (Cell Line - HUT 78)		
Format:	100 µg in 100 µl PBS containing 0.02% sodium azide.		
Storage Conditions:	6 months: 4°C. Long-term storage: -20°C. Avoid multiple freeze and thaw cycles.		
Applications:	FACS		

Additional Information

Subcellular location:	N/A	MW:	N/A
Gene ID	N/A	Uniprot ID:	N/A
